

**At the SIA "Magnum Social & Medical Care" center "RŪRE,"
environmental accessibility and healthcare service access are
ensured for individuals with functional impairments**

The SIA "Magnum Social & Medical Care" center building "RŪRE" located at Labraga Street 11, Liepāja, complies with the requirements set out in the Cabinet of Ministers Regulation No. 567 dated July 21, 2008, "Regulations on Latvian Construction Standards LBN 208-08, "Public Buildings and Structures," Chapter 4 "Accessibility Requirements for Public Buildings."

Justification: Decision No. BIS-BV-5.26-2022-3684 by the Liepāja City Construction Board on April 26, 2022. A designated parking area for people with special needs is located at the main entrance of the "RŪRE" center.

A ramp ensures free access to the center for individuals using wheelchairs or technical aids.

The ramp facilitates the transportation of patients by car to the entrance of the "RŪRE" center.

Wheelchairs and other technical aids are available in the reception area of the "RŪRE" center.

Individuals with visual or hearing impairments can receive necessary information in the center's Reception Department.

Accessible and appropriately equipped restrooms and sanitary facilities are provided for individuals with mobility impairments at the "RŪRE" center.
